

TREES IN THE CALIFORNIA LANDSCAPE

Zoom Encore

FRIDAY, JUNE 7, 10-11:00 AM

Hosted by
The City of Mission Viejo

California's Mediterranean climate ranges from snowy mountains to hot, arid plains, creating habitats for a large variety of trees. UC Master Gardeners will describe the selection of trees from natives to the exotic, their care and feeding, benefits of planting them, and potential threats to them.

Note: This is an online repeat program of an earlier in-person talk. Register to receive the Zoom link.
