An English garden in sunny Southern California? Oh, no! Let's go native and get the same effect.

UC Master Gardeners of Orange County will show you how to have a garden featuring California Native plants that will rival any other location in color, variety and beauty. All this while reducing water usage, chemical fertilization and increasing local wildlife habitat.

Free, open to the public

Note: If you are unable to attend this presentation, register for the online Zoom encore on October 14.
