

“Wednesdays With A Master Gardener” Series

Free, open to the public

Welcome to this series of presentations on residential horticulture for the gardening public. We will deliver topics of interest that are trending in Orange County plus breaking information on new garden pests.

The series will be monthly on the third Wednesday of the month at 6:30 PM via the ZOOM platform.

COMING LECTURE:

**October 19, 6:30-7:30 PM
“Hydroponics 101”**

Learn from Master Gardeners of Orange County how simple, low-cost hydroponics can grow tender veggies and other plants year long, even on a patio or balcony. Hydroponics, growing plants in water, is surprisingly easy, uses less water and has fewer pest problems than in-ground gardens.

This class is an online presentation. .
