

“Wednesdays With A Master Gardener” Series

Welcome to this new series of presentations on residential horticulture for the gardening public. We will deliver topics of interest that are trending in Orange County plus breaking information on new garden pests.

This series will be monthly on the third Wednesday of the month at 6:30 PM via the ZOOM platform.

**COMING LECTURE:
April 19, 6:30-7:30**

“Be a GSI – Garden Scene Investigator”

Is it a bug? A furry critter? Fungus or disease? Learn how to look for evidence when something attacks your plants. Evidence can lead to the culprit, which will help identify the Integrated Pest Management solutions that will keep your garden healthy.

When you need extra help, instead of contacting the FBI, contact the UCCEMG hotline. We've got your back!

The online class is free and open to the public.
