

RAISED BED VEGETABLE GARDENING -Zoom Encore

FRIDAY, DEC. 8, 10-11:00 AM

Hosted by
The City of Mission Viejo

Raised beds sidestep the problem with poor soil. They also provide better air infiltration, drainage, warmer soils early in the season, a barrier to weeds, and can facilitate higher planting densities to better utilize small spaces.

Learn how to create and maintain raised bed planters to grow fresh vegetables all year around.

Free, open to the public

NOTE: This is an online encore presentation of a previous in-person talk. Register to receive the Zoom link.
